### DETAILED ACTION

1. Applicant cancelled claims 1-11 pursuant to the February 27, 2001 Amendment.

#### *Election/Restrictions*

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 12-21, drawn to an apparatus, classified in class 235, subclass 435. 235/383,5  
186/61
  - II. Claims 22-26, drawn to a apparatus and a GUI editor, classified in class 358, subclass 501.
  - III. Claims 27 -31, drawn to a method for self-checkout of non-bar coded items, classified in class 705, subclass 23.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions Group III and I and II are related as process and apparatus for its practice.

The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus can be used to practice another process where the display measures an approximate weight based upon the scanned area of the display.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the search required for Groups I and II is not required for Group III, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant's Information Disclosure Statements of February 16, 2001, March 5, 2001 and March 10, 2003 have been received by the USPTO. Each will be reviewed in due course.
